

## COVID-19 STUDENT DAILY CHECKLIST

Review this checklist everyday before you come to school or clinical. If you answer “yes” to ANY of these questions, STAY HOME and consult the “BHSON Nursing Student Decision Grid”. If any of these symptoms start while you are in school or clinical, GO HOME IMMEDIATELY and consult the decision grid.

### Do you have:

- Temperature over 100.4? (even without taking fever-reducing medication)
- Cough?
- Shortness of breath?
- Sore throat?
- Chills?
- GI symptoms (such as nausea, vomiting, diarrhea, loss of appetite)?
- Loss of smell or taste?
- Headache?
- Muscle aches?
- Have you been in close contact with anyone that has been diagnosed with COVID-19?
- Have you been asked to self-isolate/quarantine by a medical professional or local public health official?
- Have you been diagnosed with COVID-19?

If you have answered “no” to all of these questions, you are able to come to school or clinical and complete the temperature screening.

**Personal responsibility is crucial to stopping the spread of the disease, and the participation of all members of our BHSON community in following restrictions and guidelines is critically important for our collective and individual health and safety.**
