PURPOSE: The Financial Assistance Policy provides guidance and protocols to be used to identify and to assist patients who are unable to pay for medical services provided by Brockton Hospital.

POLICY: The hospital will help uninsured and underinsured individuals apply for health coverage or financial assistance through a public assistance program or through the hospital’s financial assistance program (including but not limited to MassHealth, the premium assistance payment program operated by the Health Connector, the Children’s Medical Security Program, the Health Safety Net, and Medical Hardship), and assist/work with individuals to apply or enroll as appropriate.

RESPONSIBILITY: The Patient Access and Patient Financial Services departments are responsible for the administration of this policy.

SCOPE OF COVERAGE & PROCEDURE: This policy applies to emergency, medically necessary and other care provided by Brockton Hospital (“the hospital”), including care provided in the hospital by a substantially related entity, and includes specific locations and providers as identified in this policy.

The hospital is the frontline caregiver providing medically necessary care for all people who present to its facility and locations regardless of ability to pay. The hospital offers this care for all patients that come to our facility 24 hours a day, seven days a week, and 365 days a year. As a result, the hospital is committed to providing all of our patients with high-quality care and services. As part of this commitment, the hospital works with individuals with limited incomes and resources to find available options to cover the cost of their care.

The hospital will help uninsured and underinsured individuals apply for health coverage through a public assistance program or the hospital’s financial assistance program (including but not limited to MassHealth, the premium assistance payment program operated by the Health Connector, the Children’s Medical Security Program, the Health Safety Net, and Medical Hardship), and work with individuals to enroll as appropriate. Assistance for these programs is determined by reviewing, among other items, an individual’s household income, assets, family size, expenses, and medical needs.

While the hospital assists patients in obtaining health coverage through public programs and financial assistance through other sources whenever appropriate, including the hospital, the hospital may also be required to appropriately bill for and collect specific payments, which may include but not be limited to applicable co-payments, deductibles, deposits, and other amounts for which the patient agrees to be responsible. When registering for services or if receiving a bill, the hospital encourages patients to contact our staff to determine if they and/or a family member are in need of and eligible for financial assistance.
In working with patients to find available public assistance or coverage through the hospital’s financial assistance, the hospital does not discriminate on the basis of race, color, national origin, citizenship, alienage, religion, creed, sex, sexual orientation, gender identity, age, or disability in its policies or in its application of policies, concerning the acquisition and verification of financial information, preadmission or pretreatment deposits, payment plans, deferred or rejected admissions, determination that an individual qualifies for Low Income Patient status as determined by the Massachusetts MassHealth/Connector eligibility system, or attestation of information to determine Low Income patient status. As such, this policy was reviewed and approved by the Brockton Hospital Board of Trustees.

While we understand that each individual has a unique financial situation, information and assistance regarding eligibility for public assistance programs and/or coverage through the hospital’s financial assistance program may be obtained by contacting the hospital’s Financial Counseling Department, located at the main hospital campus at 680 Centre Street, Brockton, MA between 7:00AM – 4:30PM, Monday through Friday or via telephone at (508) 941-7919, between 7:00AM and 11:30PM, Monday through Friday, and 8:00AM through 4:30PM on Saturday and Sunday.

More information about this policy and the hospital’s financial assistance program, including the application form and a plain language summary of the financial assistance policy, are available on the hospital’s website at: https://www.signature-healthcare.org/Patients-Visitors/Patient-Forms/Financial-Assistance

The actions that the hospital may take in the event of nonpayment are described in the hospital’s separate billing and collections policy, are available on the hospital’s website at: https://www.signature-healthcare.org/Patients-Visitors/Patient-Forms/Financial-Assistance

I. Coverage for Medically Necessary Health Care Services

The hospital provides medically necessary medical and behavioral health care services for all patients who present at a hospital location regardless of their ability to pay. Medically necessary services includes those that are reasonably expected to prevent, diagnose, prevent the worsening of, alleviate, correct, or cure conditions that endanger life, cause suffering or pain, cause physical deformity or malfunction, threaten to cause or to aggravate a disability, or result in illness or infirmity. Medically Necessary Services include inpatient and outpatient services as authorized under Title XIX of the Social Security Act.

The treating medical professional will determine the type and level of care and treatment that is necessary for each patient based on their presenting clinical symptoms and following applicable standards of practice. The hospital follows the federal Emergency Medical Treatment and Active Labor Act (EMTALA) requirements by conducting a medical screening examination for patients who present at a hospital location seeking emergency services to determine whether an emergency medical condition exists.

Classification of emergency and nonemergency services is based on the following general definitions, as well as the treating clinician’s medical determination. The definitions of emergency or urgent care services provided below are further used by the Hospital for purposes of determining allowable
emergency and urgent bad debt coverage under the hospital’s financial assistance program, including the Health Safety Net.

A. Emergency and Urgent Care Services
Any patient who presents at a hospital requesting emergency assistance will be evaluated based on the presenting clinical symptoms without regard to the patient’s identification, insurance coverage, or ability to pay. The hospital will not engage in actions that discourage individuals from seeking emergency medical care, such as demanding that patients pay before receiving treatment for emergency medical conditions, or interfering with the screening for and providing of emergency medical care by first discussing the hospital’s financial assistance program or eligibility for public assistance programs.

a. Emergency Level Services includes treatment for:
   i. A medical condition, whether physical or mental, manifesting itself by symptoms of sufficient severity, including severe pain, such that the absence of prompt medical attention could reasonably be expected by a prudent layperson who possesses an average knowledge of health and medicine to result in placing the health of the person or another person in serious jeopardy, serious impairment to bodily functions, or serious dysfunction of any bodily organ or part, or, with respect to a pregnant woman, as further defined in 42 U.S.C. § 1395dd(e)(1)(B).
   ii. In accordance with federal requirements, EMTALA is triggered for anyone who presents to a hospital’s property requesting examination or treatment of an emergency (as defined above) or who enters the emergency department requesting examination or treatment for a medical condition. Most commonly, unscheduled persons present themselves at the emergency department. However, unscheduled persons requesting services for an emergency medical condition while presenting at another inpatient/outpatient unit, clinic, or other ancillary area will also be evaluated for and possibly transferred to a more appropriate location for an emergency medical screening examination in accordance with EMTALA. Examination and treatment for emergency medical conditions, or any such other service rendered to the extent required under EMTALA, will be provided to the patient and will qualify as emergency level care. The determination that there is an emergency medical condition is made by the treating clinician or other qualified medical personnel of the hospital as documented in the hospital medical record.

b. Urgent Care Services include treatment for the following:
   i. Medically Necessary Services provided in an Acute Hospital after the sudden onset of a medical condition, whether physical or mental, manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson would believe that the absence of medical attention within 24 hours could reasonably expect to result in placing a patient’s health in jeopardy, impairment to bodily function, or dysfunction of any bodily organ or part. Urgent Care Services are provided for conditions that are not life threatening and do not pose a high risk of serious damage to an individual’s health. Urgent Care Services do not include Primary or Elective Care.
B. Non-Emergent, Non-Urgent Services:
For patients who (1) the treating clinician determines is non-emergent or non-urgent level care or (2) seek care and treatment following stabilization of an emergency medical condition, the hospital may deem that such care is primary or elective services.

a. Primary or Elective Services includes medical care that is not an Urgent or Emergency level of care and is required by individuals or families for the maintenance of health and the prevention of illness. Typically, these services are medical or behavioral health procedures/visits scheduled in advance or on the same day by the patient or by the health care provider at a hospital location including but not limited to the main campus, a remote site or location, as well as an affiliated physician office, clinic, or community health center. Primary Care consists of health care services customarily provided by general practitioners, family practitioners, general internists, general pediatricians, and primary care nurse practitioners or physician assistants in a primary care service. Primary Care does not require the specialized resources of an Acute Hospital emergency department and excludes Ancillary Services and maternity care services.

b. Non-emergent or non-urgent health care services (i.e., primary or elective care) may be delayed or deferred based on the consultation with the hospital’s clinical staff, as well as the patient’s primary care or treating provider if available and as appropriate. The hospital may further decline to provide a patient with non-emergent, non-urgent services if the patient is medically stable and the hospital is unable to obtain from the patient or other sources appropriate payment source or eligibility information for a public or private health insurance to cover the cost of the non-emergent and non-urgent care. Coverage for healthcare services, including medical and behavioral health, is determined and outlined in a public and private health insurer’s medical necessity and coverage manuals. While the hospital will attempt to determine coverage based on the patient’s known and available insurance coverage, it may bill the patient if the services are not a reimbursable service and the patient has agreed to be billed.

c. Coverage from a public, private, or hospital based financial assistance program may not apply to certain primary or elective procedures that are not reimbursable by such coverage options. If the patient is not sure if a service is not covered, they should contact the hospital’s Financial Counseling Department, located at the main hospital campus at 680 Centre Street, Brockton, MA between 7:00AM – 4:30PM, Monday through Friday or via telephone at (508) 941-7919, between 7:00AM and 11:30PM, Monday through Friday, and 8:00AM through 4:30PM on Saturday and Sunday.

C. Hospital Locations providing medically necessary services and covered by the Financial Assistance Policy:

The hospital’s financial assistance policy covers the following locations where patients can also obtain information on the availability of public assistance programs:

- **Brockton Hospital**
  - 680 Centre St, Brockton, MA
- **Brockton Hospital Outpatient Care Center**
  - 130 Quincy Avenue, 1st and 2nd Floors, Brockton, MA
- **Signature Healthcare Brockton Hospital**
  - 110 Liberty Street, 1st Floor, Suite #1B, Brockton, MA
- **Signature Healthcare Brockton Hospital Imaging**
A list of provider groups and departments covered under this policy other than the Hospital facility itself, delivering emergency, urgent or medically necessary care at Brockton Hospital is available on the Brockton Hospital website at https://www.signature-healthcare.org/Patients-Visitors/Patient-Forms/Financial-Assistance

The hospital financial assistance policy does not cover services provided by non-employed providers such as anesthesiologists, radiologists, pathologists, etc. even though they have privileges to perform services at the Hospital facility delivering emergency, urgent or medically necessary care at Brockton Hospital. A list of these providers is available on the Brockton Hospital website at https://www.signature-healthcare.org/Patients-Visitors/Patient-Forms/Financial-Assistance

A call to the Financial Counseling Department at (508) 941-7919 can be made to request paper copies of the lists of covered and non-covered providers.

II Public Assistance Programs and Hospital Financial Assistance

A. General Overview of Health Coverage and Financial Assistance Programs
Hospital patients may be eligible for free or reduced cost of health care services through various state public assistance programs as well as the hospital financial assistance programs (including but not limited to MassHealth, the premium assistance payment program operated by the Health Connector, the Children’s Medical Security Program, the Health Safety Net, and Medical Hardship), including the Hospital’s Self Pay Discount Program. Such programs are intended to assist low-income patients taking into account each individual’s ability to contribute to the cost of his or her care. For those individuals that are uninsured or underinsured, the hospital will, when requested, help them with applying for either coverage through public assistance programs or hospital financial assistance programs that may cover all or some of their unpaid hospital bills.

The hospital may make presumptive determinations that a patient is eligible for financial assistance under the financial assistance policy based on information other than that provided by the patient or based on a prior determination of eligibility. In the event that a patient is determined to be eligible for less than the most generous assistance available under the financial assistance policy, the hospital will: (i) notify the
patient regarding the basis for the presumptive eligibility determination and the way to apply for more generous assistance available under the financial assistance policy; (ii) give the patient a reasonable period of time to apply for more generous assistance and (iii) if the patient submits a complete application seeking more generous financial assistance during the application period, determine whether the patient is eligible for the more generous discount.

B. State Public Assistance Programs
The Hospital is available to assist patients in enrolling into state health coverage programs. These include MassHealth, the premium assistance payment program operated by the state’s Health Connector, and the Children’s Medical Security Plan. For these programs, applicants can submit an application through an online website (which is centrally located on the state’s Health Connector Website), a paper application, or over the phone with a customer service representative located at either MassHealth or the Connector. Individuals may also ask for assistance from hospital financial counselors (also called certified application counselors) with submitting the application either on the website or through a paper application.

C. Hospital Financial Assistance
The Hospital also provides financial assistance to patients whose income demonstrates an inability to pay for all or a portion of services provided. Patients who are Massachusetts residents and/or in the Hospital’s service area may be required to complete their state’s application for Medicaid coverage or subsidized health insurance prior to seeking coverage through the hospital’s own financial assistance options. Qualifying patients are eligible for the Hospital’s Financial Assistance Policy based on the below criteria:

C.1. Hospital Financial Assistance through the Health Safety Net
Through its participation in the Massachusetts Health Safety Net, the Hospital provides financial assistance to low-income uninsured and underinsured patients who are Massachusetts residents and who meet income qualifications. The Health Safety Net was created to more equitably distribute the cost of providing uncompensated care to low income uninsured and underinsured patients through free or discounted care across acute hospitals in Massachusetts. The Health Safety Net pooling of uncompensated care is accomplished through an assessment on each hospital to cover the cost of care for uninsured and underinsured patients with incomes under 300% the federal poverty level. It is the hospital’s policy that all patients who receive financial assistance under the hospital’s financial assistance policy includes the health safety net services as part of the uncompensated care provided to low income patients.

Through its participation in the Health Safety Net, low-income patients receiving services at the Hospital may be eligible for financial assistance, including free or partially free care for Health Safety Net eligible services defined in 101 CMR 613:00.

(a) Health Safety Net - Primary
Uninsured patients who are Massachusetts residents with verified MassHealth MAGI household Income or Medical Hardship Family income, as described in 101 CMR 613.04(1), between 0-300% of the Federal Poverty Level (FPL) may be determined eligible for Health Safety Net Eligible Services.

The eligibility period and type of services for Health Safety Net - Primary is limited for patients eligible for enrollment in the Premium Assistance Payment Program operated by the Health Connector as described in 101 CMR 613.04(5)(a) and (b). Patients subject to the Student Health Program requirements of M.G.L. c. 15A, § 18 are not eligible for Health Safety Net – Primary.
(b) Health Safety Net – Secondary
Patients that are Massachusetts residents with primary health insurance and MassHealth MAGI Household income or Medical Hardship Family Countable Income, as described in 101 CMR 613.04(1), between 0 and 300% of the FPL may be determined eligible for Health Safety Net Eligible Services. The eligibility period and type of services for Health Safety Net - Secondary is limited for patients eligible for enrollment in the Premium Assistance Payment Program operated by the Health Connector as described in 101 CMR 613.04(5)(a) and (b). Patients subject to the Student Health Program requirements of M.G.L. c. 15A, § 18 are not eligible for Health Safety Net – Primary.

(c) Health Safety Net - Partial Deductibles
Patients that qualify for Health Safety Net Primary or Health Safety Net - Secondary with MassHealth MAGI Household income or Medical Hardship Family Countable Income between 150.1% and 300% of the FPL may be subject to an annual deductible if all members of the Premium Billing Family Group (PBFG) have an income that is above 150.1% of the FPL. This group is defined in 130 CMR 501.0001.

If any member of the PBFG has an FPL below 150.1% there is no deductible for any member of the PBFG. The annual deductible is equal to the greater of:
1. the lowest cost Premium Assistance Payment Program Operated by the Health Connector premium, adjusted for the size of the PBFG proportionally to the MassHealth FPL income standards, as of the beginning of the calendar year; or
2. 40% of the difference between the lowest MassHealth MAGI Household income or Medical Hardship Family Countable Income and 200% of the FPL.

(d) Health Safety Net - Medical Hardship
A Massachusetts resident of any income may qualify for Medical Hardship through the Health Safety Net if allowable medical expenses have so depleted his or her countable income that he or she is unable to pay for health services. To qualify for Medical Hardship, the applicant’s allowable medical expenses must exceed a specified percentage of the applicant’s Countable Income defined in 101 CMR 613 as follows:

<table>
<thead>
<tr>
<th>Income Level</th>
<th>Percentage of Countable Income</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 - 205% FPL</td>
<td>10%</td>
</tr>
<tr>
<td>205.1 - 305% FPL</td>
<td>15%</td>
</tr>
<tr>
<td>305.1 - 405%</td>
<td>20%</td>
</tr>
<tr>
<td>405.1 - 605% FPL</td>
<td>30%</td>
</tr>
<tr>
<td>&gt;605.1% FPL</td>
<td>40%</td>
</tr>
</tbody>
</table>

The applicant’s required contribution is calculated as the specified percentage of Countable Income in 101 CMR 613.05(1)(b) based on the Medical Hardship Family’s FPL multiplied by the actual Countable Income less bills not eligible for Health Safety Net payment, for which the applicant will remain responsible. Further requirements for Medical Hardship are specified 101 CMR 613.05.
C.2. Hospital Additional Financial Assistance
In addition to the Health Safety Net, the hospital provides a Self Pay Discount for services provided to verified uninsured self pay patients who are ineligible for MassHealth, Health Safety Net or any other medical or financial assistance programs. Services are discounted to the Medicare fee schedule in effect at the time of service. There are no income or asset criteria requirements associated with this discount. This financial assistance is meant to supplement and not replace other coverage for services in order to ensure the financial assistance is provided when needed. The hospital will not deny financial assistance under its financial assistance policy based on the applicant’s failure to provide information or documentation unless that information or documentation is described in and necessary for the determination of financial assistance through the application form.

D. Limitations on Charges
The hospital will not charge any individual who is eligible for assistance under its financial assistance policy for emergency and medically necessary care more than the Medicare fee for service rates.

The hospital will charge any individual who is eligible for assistance under its financial assistance policy for all other care an amount less than gross charges for such care.

E. Notices & Application for Hospital Financial Assistance and Public Assistance Programs

E.1 Notices of Available Hospital Financial Assistance & Public Assistance Options
For those individuals who are uninsured or underinsured, the hospital will work with patients to assist them in applying for public assistance and/or hospital financial assistance programs that may cover some or all of their unpaid hospital bills. In order to help uninsured and underinsured individuals find available and appropriate options, the hospital will provide all individuals with a general notice of the availability of public assistance and financial assistance programs during the patient’s initial in-person registration at a hospital location for a service, in all billing invoices that are sent to a patient or guarantor, and when the provider is notified or through its own due diligence becomes aware of a change in the patient’s eligibility status for public or private insurance coverage.

The hospital will post general notices and also make paper copies of the FAP documents available upon request and without charge, both by mail and at service delivery areas where there is a registration or check-in area (including, but not limited to, inpatient, outpatient, emergency departments, and affiliated community health center locations), in Certified Application Counselor (“CAC”) offices, and in general business office areas that are customarily used by Patients (e.g., admissions and registration areas, or patient financial services offices that are actively open to the public).

In addition the hospital will also post notices in local community health centers, senior and education facilities. The general notice will inform the patient about the availability of public assistance and hospital financial assistance (including MassHealth, the premium assistance payment program operated by the Health Connector, the Children’s Medical Security Program, the Health Safety Net and Medical Hardship) as well as the location(s) within the hospital and/or the phone numbers to call to schedule an appointment with a CAC. The goal of these notices is to assist individuals in applying for coverage within one or more of these programs.
E.2. Application for Hospital Financial Assistance and Public Assistance Programs
The Hospital is available to assist patients in enrolling into a state public assistance program. These include MassHealth, the premium assistance payment program operated by the state’s Health Connector, and the Children’s Medical Security Plan. Based on information provided by the patient, the hospital will also identify available coverage options through its financial assistance program, including the Health Safety Net and Medical Hardship programs.

For programs other than Medical Hardship, applicants can submit an application through an online website (which is centrally located on the state’s Health Connector Website), a paper application, or over the phone with a customer service representative located at either MassHealth or the Connector. Individuals may also ask for assistance from the hospital’s certified application counselor with submitting the application either on the website or through a paper application.

For Medical Hardship, hospital will work with the patient to determine if a program like Medical Hardship would be appropriate and submit a Medical Hardship application to the Health Safety Net. It is the patient’s obligation to provide all necessary information as requested by the hospital in an appropriate timeframe to ensure that the hospital can submit a completed application. If the patient is able to provide all information in a timely manner, the hospital will endeavor to submit the total and completed application within ten (10) business days of receiving all necessary and requested information. If the total and completed application is not submitted within ten business days of receiving all necessary information, collection actions may not be taken against the patient with respect to bills eligible for Medical Hardship.

The hospital may also assist patients with enrolling in the Health Safety Net using a presumptive determination process, which provides a limited period of eligibility. This process is conducted by hospital and community health center staff, who, on the basis of self-attestation of financial information from the patient, will deem a patient as meeting the low income patient definition and will be covered for Health Safety Net services only. Coverage will begin on the date that the provider makes the determination through the end of the following month in which the presumptive determination is made. However, coverage may be terminated sooner if the patient submits a full application as described above.

For financial assistance provided through the hospital, an applicant should generally be prepared to provide verifiable income documents for immediate family household members. Documentation examples include pay stubs, income tax filings, unemployment benefit reports, alimony judgments, etc.

Documents associated with application submitted within the past 6 months will be accepted as current, unless circumstances have changed and can be substantiated.

One may obtain a copy of our policy and application form free of charge in the following ways:
- Brockton Hospital website: [https://www.signature-healthcare.org/Patients-Visitors/Patient-Forms/Financial-Assistance](https://www.signature-healthcare.org/Patients-Visitors/Patient-Forms/Financial-Assistance)
- In our emergency department and out-patient registration areas
- Request copies to be mailed or sent electronically by calling (508) 941-7919
- Visit our Financial Counseling office located adjacent to the Information Desk at 680 Centre St., Brockton, MA to get help filling out an application or with financial assistance.
The hospital will not deny financial assistance under its financial assistance policy for information or documentation unless the information or documentation is described in its financial assistance policy or application form.

**E.3 Role of the Hospital Financial Counselor**

The hospital will help uninsured and underinsured individuals apply for health coverage through a public assistance program (including but not limited to MassHealth, the premium assistance payment program operated by the Health Connector, and the Children’s Medical Security Program), and work with individuals to enroll them as appropriate. The hospital will also help patients that wish to apply for financial assistance from the hospital, which includes coverage through the Health Safety Net and Medical Hardship.

The hospital will:

a) provide information about the full range of programs, including MassHealth, the premium assistance payment program operated by the Health Connector, the Children’s Medical Security Program, Health Safety Net, and Medical Hardship;

b) help individuals complete a new application for coverage or submit a renewal for existing coverage;

c) work with the individual to obtain all required documentation;

d) submit applications or renewals (along with all required documentation) within established timelines;

e) interact, when applicable and as allowed under the current system limitations, with the Programs on the status of such applications and renewals;

f) help to facilitate enrollment of applicants or beneficiaries in Insurance Programs; and

g) offer and provide voter registration assistance.

The hospital will advise the patient of their obligation to provide the hospital and the applicable state agency with accurate and timely information regarding their full name, address, telephone number, date of birth, social security number (if available), current insurance coverage options (including home, motor vehicle, and other liability insurance) that can cover the cost of the care received, any other applicable financial resources, and citizenship and residency information. This information will be submitted to the state as part of the application for public program assistance to determine coverage for the services provided to the individual.

If the individual or guarantor is unable to provide the necessary information, the hospital may (at the individual’s request) make reasonable efforts to obtain any additional information from other sources. Such efforts also include working with individuals, when requested by the individual, to determine if a bill for services should be sent to the individual to assist with meeting the one-time deductible. This will occur when the individual is scheduling their services, during pre-registration, while the individual is admitted in the hospital, upon discharge, or for a reasonable time following discharge from the hospital. Information that the CAC obtains will be maintained in accordance with applicable federal and state privacy and security laws.

The hospital will also notify the patient during the application process of their responsibility to report to both the hospital and the state agency providing coverage of healthcare services any third party that may be responsible for paying claims, including a home, auto, or other insurance liability policy. If the patient
has submitted a third party claim or filed a lawsuit against a third party, the CAC will notify the patient of
the requirement to notify the provider and the state program within 10 days of such actions. The patient
will also be informed that they must repay the appropriate state agency the amount of the healthcare
covered by the state program if there is a recovery on the claim, or assign rights to the state to allow it to
recover its applicable amount.

When the individual contacts the hospital, the hospital will attempt to identify if an individual qualifies
for a public assistance program or through the hospital financial assistance program. An individual who
is enrolled in a public assistance program may qualify for certain benefits. Individuals may also qualify
for additional assistance based on the hospital’s financial assistance program based on the individual’s
documented income and allowable medical expenses.
