

December 2023

Sometimes in life it's only when we lose something that we become aware of its true value.

Many of our patients have expressed this sentiment since the devastating fire of February 7, 2023, put a **screeching halt to their ability to access local, safe, and exceptional healthcare** at Signature Healthcare Brockton Hospital.

Terms like my hospital, my doctor, my therapist, my provider, and my nurse indicate how personal our relationship is with those who provide our healthcare. Our slogan line, **Signature Healthcare "The Mark of Personal Care,"** touches on the value of our relationships with you, our valued patients.

We miss you as much as you miss us and that's why we're working hard to reopen the hospital in the spring or early summer of 2024.

Nothing will please us more than the ability to once again offer you **exceptional, local, consistent, reliable around-the-clock care** that perhaps has been taken for granted over the past 127 years of Brockton Hospital's existence.

As we move to reopen the hospital in mid-year 2024, **we are asking for YOUR help** in making the reopening even more special by helping us advance our "Mission Possible" Campaign which began before the fire.

The campaign consists of four areas of improvement to the hospital:

- ❖ **Construction of a new outpatient surgery center on the hospital campus.**
- ❖ **Renovations to the Emergency Department which includes a 12-bed secure unit to treat patients with behavioral health needs.**
- ❖ **New equipment and upgrades to the Helen Greene Cardiac Catheterization Suite.**
- ❖ **Improvements to the hospital's main lobby.**

Each of these projects is designed to **provide you and your family members with a better patient experience** at Signature Healthcare Brockton Hospital.

With **YOUR help**, we can complete the majority of this work by the time Brockton Hospital, **YOUR community hospital**, reopens in mid-year 2024.

Please consider making **YOUR BEST PERSONAL GIFT** to fund improvements to YOUR community hospital as we work to return to full operation as soon as possible.
